DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 10, 17, and 27 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 10, 17, and 27 are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. Supreme Court precedent¹ and recent Federal Circuit decisions² indicate that a statutory “process” under 35 U.S.C. 101 must (1) be tied to another statutory category (such as a particular apparatus), or (2) transform underlying subject matter (such as an article or material) to a different state or thing. While the instant claim(s) recite a series of steps or acts to be performed, the claim(s) neither transform underlying subject matter nor positively tie to another statutory category that accomplishes the claimed method steps, and therefore do not qualify as a statutory process. For example, the steps of “comparing”, “identifying”, and “displaying” in claim 10 neither are tied to any particular apparatus nor transform to a different state or thing. Also, all the steps in claim 17 are not tied to any

structure or transform to a different state or thing. Similarly, claim 27 does not qualify as a statutory process because of the steps of “displaying”, “comparing”, and “highlighting”.
